

Procedure Codes of Optometry
Updated May 20, 2009

17000	Destruction by any method, all benign facial lesions in any location
17003	Two to fourteen lesions
17004	Fifteen or more lesions
65205	Removal of foreign body, external eye: conjunctival superficial non-perforating
65210	Conjunctival embedded (includes concretions), subconjunctival, or sclera Non-perforating.
65220	Corneal, without slit lamp.
65222	Corneal, with slit lamp.
65270	Repair of laceration; conjunctiva, with or without non-perforating laceration sclera, direct closure.
65275	Cornea, non-perforating, with or without removal foreign body.
65430	Scraping of cornea, diagnostic, for smear and/or culture.
65435	Removal of corneal epithelium; with or without chemocauterization (abrasion, curettage).
65436	Removal of corneal epithelium with application of chelating agent (eg. EDTA).
65600	Multiple punctures of anterior cornea.
66150-55	Fistulization of sclera for glaucoma – post-op.
66821-55	Laser surgery (eg. YAG) - post-op.
66983-55	Intra-capsular cataract extraction with IOL – post-op.
66984-55	Extracapsular cataract removal with IOL – post-op.
66985-55	Insertion IOL not associated concurrent cataract removal.
66999	Unlisted procedure, anterior segment of eye.
67700	Blepharotomy, drainage of abcess, eyelid.
67820	Correction of trichiasis; epilation, by forceps only.
67825	Epilation by other than forceps – electrolysis.

67840 Excision of lesion of eyelid (except chalazion) without closure or with simple direct closure.

67850 Destruction of lesion of lid margin (up to 1 cm).

67938 Removal of embedded foreign body, eyelid.

68020 Incision of conjunctive, drainage of cyst.

68040 Expression of conjunctival follicles.

68110 Excision of lesion, conjunctiva; up to 1 cm.

68760 Closure of the lacrimal punctum

68761 By plug, each.

68801 Dilation of lacrimal punctum, with or without irrigation, unilateral or bilateral.

68810 Probing of nasolacrimal duct, with or without irrigation.

68840 Probing of lacrimal canaliculi, with or without irrigation.

76511 Ophthalmic ultrasound, echography, diagnostic; A-scan only, with amplitude quantification.

76512 Contact B-scan (with or without simultaneous A-scan).

76513 Immersion (water bath) B-scan.

76514 Corneal pachymetry, unilateral or bilateral.

76516 Ophthalmic biometry by ultrasound echography, A-scan.

76519 With intraocular lens power calculation.

76529 Ophthalmic ultrasonic foreign body utilization.

82785 IgE

83520 Immunoassay, not otherwise specified.

86003 Allergen specific IgE: Quantitative or semi-quantitative, each allergen.

86005 Qualitative, multiallergen screen (dipstick, paddle or disk).

87205 Microbiology services, conjunctival smear, primary source; with interpretation, routine stain for bacteria, fungi, or cell types.

- 90901 Biofeedback services, by electro-oculogram application (eg. In blepharospasm).
- 92002 Ophthalmological services: medical examination and evaluation with initiation of diagnostic and treatment program; intermediate, new patient.
- 92004 Comprehensive, new patient, one or more visits.
- 92012 Ophthalmological services: medical examination and evaluation, with initiation or continuation of diagnostic and treatment program; intermediate, established patient.
- 92014 comprehensive, established patient, one or more visits.
- 92015 Determination of refractive state.
- 92025 Computerized corneal topography, unilateral, bilateral, with interpretation and report
- 92020 Gonioscopy with medical diagnostic evaluation.
- 92060 Sensorimotor examination with multiple measurements of ocular deviation and medical evaluation.
- 92065 Orthoptic and/or pleoptic training, with continuing medical direction and evaluation.
- 92070 Fitting of contact lens for treatment of disease, including supply of lens.
- 92081 Visual field examination, unilateral or bilateral, with medical diagnostic evaluation; limited examination (eg. Tangent screen, Autoplot, arc perimeter, or single stimulus level automated test).
- 92082 intermediate examination (eg. At least 2 isopters on goldmann perimeter, or semi-quantitative, automated suprathreshold screening program).
- 92083 extended examination (eg. Goldmann visual fields with at least 3 isopters plotted and static determination within the central 30 degrees, or uantitative, automated threshold perimetry).
- 92100 Serial tonometry with multiple measurements of intraocular pressure over an extended period of time with medical diagnostic evaluation, same day (eg. Diurnal curve or medical treatment of acute elevation of intraocular pressure).
- 92120 Tonography with interpretation and report, recording indentation tonometer method or perilimbal suction method.
- 92130 Tonography with water provocation.
- 92135 Scanning computerized ophthalmic diagnostic imaging (eg. Scanning laser) with interpretation and reports unilateral.

- 92136 Ophthalmic biometry by partial coherence interferometry with intraocular lens power calculation.
- 92140 Provocative tests for glaucoma, with medical diagnostic evaluation.
- 92225 Ophthalmoscopy, extended as for retinal detachment (may include use of contact lens, drawing or sketch, and/or fundus biomicroscopy).
- 92226 Subsequent.
- 92230 Fluorescein angiography with interpretation and report.
- 92235 Ophthalmoscopy, with fluorescein angiography (includes multi-frame photography).
- 92250 Fundus photography with medical diagnostic evaluation.
- 92260 Ophthalmoscopy, with ophthalmodynamometry.
- 92265 Oculoelectromyography, one or more extraocular muscles, one or both eyes, with medical diagnostic evaluation.
- 92270 Electro-oculography, with medical diagnostic evaluation.
- 92275 Electroretinography, with medical diagnostic evaluation.
- 92283 Color vision examination, extended, eg, anomaloscope or equivalent.
- 92284 Dark adaptation examination with interpretation and report.
- 92285 External ocular photography with medical diagnostic evaluation for documentation of medical progress (eg. Close-up photography, slit lamp photography, gonioscopy, stereophotography).
- 92286 Special anterior segment photography with interpretation and report; with specular endothelial microscopy and cell count.
- 92287 With fluorescein angiography.
- 92310 Prescription of optical and physical characteristics of and fitting of contact lens, with medical supervision of adaptation; corneal lens, both eyes, except for aphakia.
- 92311 Corneal lens for aphakia, one eye.
- 92312 Corneal lens for aphakia, both eyes.
- 82313 Corneoscleral lens.
- 92314 Prescription of optical and physical characteristics of contact lens, with medical supervision of adaptation and direction of fitting by independent

- technician; corneal lens, both eyes except for aphakia.
- 92315 Corneal lens for aphakia, one eye.
- 92316 Corneal lens for aphakia, both eyes.
- 92317 Corneoscleral lens.
- 92325 Modification of contact lens (separate procedure), with medical supervision of adaptation.
- 92326 Replacement of contact lens.
- 92340 Fitting of spectacles, except for aphakia monofocal.
- 92341 Bifocal.
- 92342 Multifocal, other than bifocal.
- 92352 Fitting of spectacle prosthesis for aphakia; monofocal.
- 92353 Multifocal.
- 92354 Fitting of spectacle mounted low vision aid; single element system.
- 92355 Telescopic or other compound lens system.
- 92358 Prosthesis service for aphakia, temporary (disposable or loan, including materials).
- 92370 Repair and refitting spectacles; except for aphakia.
- 92371 Spectacle prosthesis for aphakia.
- 92499 Unlisted ophthalmological service or procedure.
- 92534 Optokinetic nystagmus test.
- 92541 Spontaneous nystagmus test including gaze and fixation nystagmus, with recording.
- 92542 Positional nystagmus test, minimum 4 positions, with recording.
- 92544 Optokinetic nystagmus test, bidirectional, foveal, or peripheral stimulation, with recording.
- 92545 Oscillating tracking test, with recording.
- 95930 Visual evoked potential (VEP) testing central nervous system, checkerboard or flash.

- 95933 Orbicularis oculi (blink) reflex, by electrodiagnostic testing.
- 96110 Developmental testing: limited with interpretation and report
- 96111 Developmental testing; extended with interpretation and report
- 97110 Therapeutic procedure, one or more areas, each 15 minutes: therapeutic Exercises to develop strength and endurance, range of motion and flexibility
- 97112 Neuromuscular reeducation of movement, balance, coordination, kinesthetic Sense, posture, and/or proprioception for sitting and/or standing
- 97530 Therapeutic activities, direct (one-on-one) patient contact by the provider (use of dynamic activities to improve functional performance) each 15 minutes
- 97532 Development of cognitive skills to improve attention, memory, problem solving, direct (one-on-one) patient contract by provider, each 15 minutes.
- 97533 Sensory interpretive techniques to enhance sensory processing and promote adaptive responses to environmental demand, direct (one-on-one) patient contact by the provider, each 15 minutes.
- 99050 Services requested after office hours in addition to basic service
- 99051 Services provided in the office during regularly scheduled evening, weekend, or Holiday office hours, in addition to basic service
- 99053 Services provided between 10:00PM and 8:00 AM at 24 hour facility. In addition to basic service
- 99056 Services typically provided in the office, provided out of the office at request of Patient, in addition to basic service
- 99058 Office services provided on an emergency basis.
- 99060 Services provide on an emergency basis in the office, which disrupts other scheduled office services, in addition to basic service
- 99070 Supplies and materials (except spectacles), provided by a physician over and above those usually included with the office visit or other services rendered (list drugs, trays, supplies, or materials provided).
- 99080 Special reports, such as insurance forms, more than the information conveyed in the usual medical communications or standard reporting form.
- 99172 Visual function screening, automated or semi-automated bilateral quantitative determination of visual acuity, ocular alignment, color vision by pseudoisochromatic plates, and field of vision (may include all or some

screening of the determination(s) for contrast sensitivity, vision under glare). (This service must employ graduated visual acuity stimuli that allow a quantitative determination of visual acuity (eg. Snellen chart). This service may not be used in addition to a general ophthalmological service or an E/M service.

- 99173 Screening test of visual acuity, quantitative, bilateral.
- 99199 Unlisted special service, procedure or report.
- 99201 Office or other outpatient visit for evaluation and management of a new patient, which requires these three key components: A problem focused history; a problem focused examination; and straightforward medical decisions making.
- 99202 Office or other outpatient visit for evaluation and management of a new patient, which requires these three key components: an expanded problem focused history; an expanded problem focused examination; and straightforward medical decision making.
- 99203 Office or other outpatient visit for the evaluation and management of a new patient, which requires these three key components: a detailed history; a detailed examination; and medical decision making of low complexity.
- 99204 Office or other outpatient visit for the evaluation and management of a new patient, which requires these three key components: a comprehensive history; a comprehensive examination; medical decision making of moderate complexity.
- 99205 Office or other outpatient visit for the evaluation and management of a new patient, which requires these three components: a comprehensive history; a comprehensive examination; and medical decision making of high complexity.
- 99211 Office or other outpatient visit for the evaluation and management of an established patient, that may not require the presence of a physician usually the presenting problems are minimal, typically 5 minutes are spent performing or supervising these services.
- 99212 Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components: a problem focused history; a problem focused examination; a straightforward medical decision making.
- 99213 Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components: an expanded problem focused history; and expanded problem focused examination; medical decision making of low complexity.

- 99214 Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components: a detailed history; a detailed examination; medical decision making of moderate complexity.
- 99215 Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components: a comprehensive history; a comprehensive examination; medical decision making of high complexity.
- 99241 Office consultation for a new or established patient, which requires these three components: a problem focused history; a problem focused examination; and straightforward medical decision making.
- 99242 Office consultation for a new or established patient, which requires these three key components: an expanded problem focused history; an expanded problem focused examination; and straightforward medical decision making.
- 99243 Office consultation for a new or established patient, which requires these three key components: a detailed history; a detailed examination; and medical decision making of low complexity.
- 99244 Office consultation for a new or established patient, which requires these three key components: a comprehensive history; a comprehensive examination; and medical decision making of moderate complexity.
- 99245 Office consultation for a new or established patient, which requires these 3 components: comprehensive history, A comprehensive examination and Medical decision making of high complexity
- 99251 Initial inpatient consultation for a new or established patient, which requires these three key components: a problem focused history; a problem focused examination; and straightforward medical decision making. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are self limited or minor. Physicians typically spend 20 minutes at the bedside and on the patient's hospital floor or unit.
- 99252 Initial inpatient consultation for a new or established patient, which requires these three key components: an expanded problem focused history; and expanded problem focused examination; and straightforward medical decision making. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of low severity. Physicians typically spend 40 minutes at the bedside and on the patient's hospital floor or unit.

- 99253 Initial inpatient consultation for a new or established patient, which requires these three key components: a detailed history; a detailed examination; and medical decision making of low complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of moderate severity. Physicians typically spend 55 minutes at the bedside and on the patient's hospital floor or unit.
- 99254 Initial inpatient consultation for a new or established patient, which requires these three key components: a comprehensive history; a comprehensive examination; and medical decision making of moderate complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of moderate to high severity. Physicians typically spend 80 minutes at the bedside and on the patient's hospital floor or unit
- 99255 Inpatient consultation for anew or established patient, which requires these .3 key components: a comprehensive history, a comprehensive examination and medical decision making of high complexity
- 99281 Emergency department visit for the evaluation and management of a patient, which requires these three key components: a problem focused history; a problem focused examination; and straightforward medical decision making.
- 99282 Emergency department visit for the evaluation and management of a patient, which requires these three key components: an expanded problem focused history; an expanded problem focused examination; and medical decision making or low complexity.
- 99283 Emergency department visit for the evaluation and management of a patient, which requires these three key components, and expanded problem focused history; an expanded problem focused examination; and medical decision making of moderate complexity.
- 99284 Emergency department visit for the evaluation and management of a patient, which requires these three key components: a detailed history; a detailed examination; and medical decision making of moderate complexity.
- 99285 Emergency department visit for the evaluation and management of a patient Which requires these 3 key components within the constraints imposed by the Urgency of the patient's condition and or mental status; comprehensive history, comprehensive examination, and medical decision making of high complexity.
- 99304 Initial nursing facility care, per day, for the evaluation and management of A patient, which requires these 3 key componets History, comprehensive Exam, and medical decision making low complexity
- 99305 Initial nursing facility care, per day, for the evaluation and management of

a patient , which requires these 3 key components: history, comprehensive exam and moderate complexity

- 99306 Initial nursing facility care, per day, for the evaluation and management of a patient, which requires these 3 components: history, comprehensive exam, and high complexity decision making
- 99307 Subsequent nursing facility care, per day, for the evaluation and management of a new or established patient, which requires at least two of these three key components: a problem focused internal history; a problem focused examination; medical decision making that is straight forward of a low complexity.
- 99308 Subsequent nursing facility care, per day, for the evaluation and management of a new or established patient, which requires at least two of these three key components: an expanded problem focused internal history; an expanded problem focused examination; medical decision making of moderate complexity.
- 99309 Subsequent nursing facility care, per day, for the evaluation and management of a new or established patient, which requires at least two of these three key components: A detailed internal history; a detailed examination; medical decision making of moderate to high complexity.
- 99310 Subsequent nursing facility care, per day, for evaluation and management of a patient , which requires at least 2 of these 3 components: a comprehensive interval history, a comprehensive examination, and medical decision making of high complexity.
- 99324 Domiciliary or rest home visit for the evaluation and management of a new patient, which requires these three key components: a problem focused history; a problem focused examination; and straightforward medical decision making. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patients and/or family's needs. Usually, the presenting problem(s) are of low severity. Physicians typically spend 20 minutes with the patient and/or family or caregiver.
- 99325 Domiciliary or rest home visit for the evaluation and management of a new patient which requires these three key components: an expanded problem focused history; an expanded problem focused examination; and medical decision making of low complexity. Usually, the presenting problem(s) are of moderate severity. Physicians typically spend 30 minutes with the patient and/or family or caregiver.
- 99326 Domiciliary or rest home visit for the evaluation and management of a new patient, which requires these three key components: a detailed history; a detailed examination; and medical decision making of moderate complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patients and/or family's needs. Usually, the presenting problem(s) are of moderate to high

severity. Physicians typically spend 45 minutes with the patient and/or family or caregiver.

- 99327 Domiciliary or rest home visit for the evaluation and management of a new patient, which requires these three key components: a comprehensive history; a comprehensive examination; and medical decision making of moderate complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of high severity. Physicians typically spend 60 minutes with the patient and/or family or caregiver.
- 99328 Domiciliary or rest home visit for the evaluation and management of a new Patient, which requires these 3 key components: A comprehensive history, A comprehensive examination , and medical decision making of high complexity.
- 99334 Domiciliary or rest home visit for the evaluation and management of an established patient, which requires at least two of these three key components: a problem focused interval history; a problem focused examination; straightforward medical decision making. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patients and/or family's needs. Usually, the presenting problem(s) are self-limited or minor. Physicians typically spend 15 minutes with the patient and/or family or caregiver.
- 99335 Domiciliary or rest home visit for the evaluation and management of an established patient, which requires at least two of these three components: and expanded problem focused interval history; and expanded problem focused examination; an expanded problem focused examination; medical decision making of low complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patients and/or family's needs. Usually, the presenting problem(s) are of low to moderate severity. Physicians typically spend 25 minutes with the patient and/or family or caregiver.
- 99336 Domiciliary or rest home visit for the evaluation and management of an established patient, which requires at least tow of these three key components: a detailed interval history; a detailed examination; medical decision making of moderate complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patients and/or family's needs. Usually, the presenting problem(s) are of moderate to high severity. Physicians typically spend 40 minutes with the patient and/or family or caregiver.
- 99337 Domiciliary or rest home visit for the evaluation and management of an Established patient, which requires at least 2 of these 3 components: A comprehensive interval history, a comprehensive examination, a medical decision making of moderate to high complexity.

- 99341 Home visit for the evaluation and management of a new patient, which requires these three key components; a problem focused history; a problem focused examination; and straight forward medical decision making.
- 99342 Home visit for the evaluation and management of a new patient which requires these three key components: an expanded problem focused history; an expanded problem focused examination; and medical decision making of low complexity.
- 99343 Home visit for the evaluation and management of a new patient, which requires these three key components: a detailed history; a detailed examination; and medical decision making of moderate complexity.
- 99344 Home visit for the evaluation and management of a new patient which requires these three key components: a comprehensive history; a comprehensive examination; and medical decision making of moderate complexity.
- 99345 Home visit for the evaluation and management of a new patient, which requires these 3 key components, a comprehensive history, a comprehensive examination, and medical decision making of moderate complexity.
- 99347 Home visit for the evaluation and management of an established patient, which requires at least two of these three key components: a problem focused interval history; a problem focused examination; straightforward medical decision making.
- 99348 Home visit for the evaluation and management of an established patient, which requires at least two of these three key components: and expanded problem focused interval history; an expanded problem focused examination; medical decision making of low complexity.
- 99349 Home visit for the evaluation and management of an established patient, which requires at least two of these three key components: a detailed interval history; a detailed examination; medical decision making of moderate complexity.
- 99350 Home visit for the evaluation and management of an established patient, which requires at least 2 of these 3 components: a detailed interval history, A detailed examination, and medical decision making of moderate complexity
- 99499 Unlisted evaluation and management.
- 99354 Prolonged physician services in the office or other outpatient settings, requiring direct patient contact beyond the usual service.
- 99441 Telephone evaluation and management service provided by a physician to an established patient, parent or guardian not origination from a relate E/M service provided within the previous 7 days nor leading to and E/M service or procedure with the next 24 hours or soonest available appointment: 5-10 minutes of medical discussion

99442	11-20 minutes of medical discussion
99443	21-30 minutes of medical discussion
99444	Online evaluation and management service provided by a physician to an established patient, guardian, or health care provider not originating from a related E/M service provided within the previous 7 days, using the Internet or similar electronic communications network
0187T	Scanning computerized ophthalmic diagnostic imaging, anterior segment, with interpretation and report, unilateral
2027F	POAG optic nerve head assessment performed and documented
2019F	ARM dilated macular examination performed and documented
1055F	Assessment of visual function performed and documented in a cataract patient
3073F	Documentation of pre-surgical axial length, corneal power measurement and Method of IOL calculation in a cataract patient
2020F	Pre-surgical dilated fundus examination performed in a cataract patient
2021F	Documentation of the presence or absence of macular edema and level of Severity of diabetic retinopathy
5010F	Documentation of communication with the managing primary physician in a Patient with diabetic retinopathy (Must report with 2021F)
2022F	Dilated Retinal Exam- dilated retinal eye exam with interpretation by an Ophthalmologist or optometrist documented and reviewed
2024F	Seven standard field stereoscopic photos with interpretation by an Ophthalmologist or optometrist documented and reviewed
2026F	Eye imaging validated to match diagnosis from seven standard field stereoscopic photos results documented and reviewed
3072F	Low risk for retinopathy (no evidence of retinopathy in the prior year)
